EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Daniel Sullivan on January 5, 2004.

The application has been amended as follows:

IN THE CLAIMS:

In the fourth line of claim 9, as found on page 2 of the amendment filed on October 14, 2003, change the word "coupled" to the word "mounted."

2. The following is an examiner's statement of reasons for allowance: Regarding claims 9-13, the inclusion of the transparent, overhanging pass through portion in the semiconductor substrate in combination with the rest of the recited features of claim 9 appear to define a patentable invention over the prior art cited in the previous Office action. Regarding claims 14-16 and 18-19, the inclusion of a U-shaped weld plate with a notch therein and having a VCSEL array disposed thereon, appear to patentably define an optical subassembly module over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
